MESSAGE CENTER

Monthly services are billed in advance and include the applicable monthly plan, one-time fees, taxes, and surcharges. Partial or prorated charges may apply for any plan changes or service additions made during the billing cycle.

Payments received after 05-29 may not be reflected on the bill.

Lightcurve has several different payment options. Pay your bill online, update your contact information and more in one easy-to-use website visit <https://rainierconnect.smarthub.coop>. Or to make things even more convenient, you can download the SmartHub App directly to your smartphone or tablet. To make a payment by phone call our secure payment line at 1-833-619-0909.

Current Charges are due upon receipt. There is a 1% late fee on past due balances.

Contact our office at 1-800-832-5725 or for technical support at 1-888-988-8508. Visit us today at www.getlightcurve.com

If you are set up on Auto pay, it will be deducted from your debit/credit card the 5th of each month. If you are set up on Bank Draft, it will be deducted from your checking account on the 20th of each month.

There is a \$4.95 fee for paper bills. We do offer E-statements free of charge which can be set up on SmartHub. Visit our website or contact our office for more information.

Frequently Asked Questions

Why is my bill higher than expected?
When you activate a new line of service (on a new or existing account), your first bill for that line of service will be for a partial month. This portion is calculated based on the number of days between the date you began service and the last day of the bill cycle. Services are billed in advance so you also will be charged for the next full month. For example, if you connected on July 15, your August bill would include charges from July 15, to July 31, as well as charges from August 1, through August 31.

What is the 911 charge?
This surcharge is mandated by local governments to help pay for emergency services. The money collected from this charge is forwarded directly to the appropriate entity (state or county).

What is the Number Portability charge?
In certain areas of the state, the local phone bill includes an additional monthly fee to cover a network's upgrade that was ordered by federal law. The upgrade allows customers who switch telephone companies to keep their existing telephone number. This fee is approved by the FCC and vary slightly between companies.

What are End User Charges?
This is a fee authorized by the Federal Communications Commission (FCC) for providing access to, and maintenance of the local telecommunications network. The rate is higher for businesses with multiple lines.

Why am I being charged sales tax?
Telephone companies collect federal, state, and local sales taxes. These collections are sent to the respective governments that impose the taxes.

What is the Access Recovery Fee?
The FCC released the USF/ICC Transformation Order which established several new rules requiring telecommunication carriers to adjust, over a period of years, many of their switched access charges including a new tariffed Access Recovery Charge (ARC). The ARC allows for the recovery of a limited portion of revenues lost due to the FCC mandated reductions in inter-carrier payments.

What is the Federal Universal Service Charge?
The Federal Service Fund (USF) helps provide affordable telecommunications services for low-income customers and customers in rural areas. It also provides discounts on internet access for eligible schools, libraries, and rural health care providers. The USF is collected from the telecommunication carriers and administered by the Universal Service Administration Corporation (USAC). USAC is responsible for disbursing the funds according to eligibility criteria established by the FCC.

What are Utility taxes?
These are taxes assessed by the town and are used to help pay for the cost of essential services, including public safety.

What is Cable TV Franchise Tax?
For those customers who receive cable television service the FCC allows the local franchising authority (city or county government) to collect up the 5% of all revenues earned by cable operator in exchange for consent to use the right of ways and easements for the cable system's construction and operation.

What are Peg taxes?
This is a fee for public, educational, or governmental channels required by local franchising authorities.

Your normal bill cycle dates are the 1st-31st of each month. Any other dates represent when a change or add to service was made to the end of your bill cycle.

SUB-TOTAL
LIGHTCURVE LD TOTAL CHARGES
CURRENT BILLING AMOUNT

297.57
600.24
16.50
TOTAL 616.74

6 Bill Dates - Your normal bill cycle runs from the 1st to the 31st or 16th- 15th of each month. If you notice a different date range on your bill, it simply means a change or additional was made to your service during that billing cycle - not an error on your bill.

7 Proration charges - partial-month fees that appear when a service is added or changed mid-cycle. When this happens, your bill will show a charge only for the days the service was active in that billing period (e.g., 05/15-05/31).

8 This section may also include a One-Time Charges & Credits section for items like equipment purchases, installation fees, or account credits.

9 This is the total amount due.
